New Rochelle Building Department:
They informed me that since my business is home based, and it doesn't involve the public coming in and out of my home, I don't have to register with the city. Just the higher up level of government county- federal.

New Rochelle Housing Department:

I explained my income situation, that I have two sources of income, one that I easily access to and another that my rep payee manages. The person I spoke to (Nancy) remembered me from my childhood days. She was able explain to me that there are two routes to go down. Either section 8 or affordable housing list. She explained that there is also down payment assistance as well. She gave me the card to the director of housing and explained to me that they offer classes and workshops, that I could attend. She will get me the information for the income limits for the affordable housing list.
